For Grass Re-Seeding and Ground  
Leveling after Golden West's Fiber Optic Installation

Does your lawn need reseeded or the ground need releveling since the  
Fiber Optics were installed by Golden West Telecommunications?

---

**If your lawn needs to be reseeded or the alleyway behind your  
house needs to have some ground leveled out,  
please give City Hall a call – 942-7767.**

The City is working with Golden West in compiling a list of all residents who have been  
affected and Golden West will be performing the reclamation work.
